

ACCESSIBILITY INFRASTRUCTURE FOR INCLUSIVE SPACES

**Trusted solutions for businesses, institutions,
and public environments**

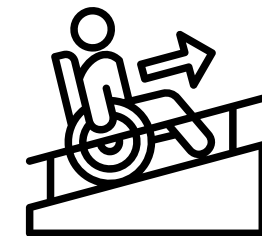

BUILDING PRACTICAL ACCESSIBILITY SOLUTIONS FOR REAL-WORLD SPACES

Acc-Red is an accessibility infrastructure company helping organizations create safer, more inclusive, and more usable spaces through practical mobility and access solutions. Founded in Mumbai in 2021, the company is focused on solving real accessibility challenges with solutions that are functional, durable, and deployment-ready.

With experience across diverse site conditions and user needs, Acc-Red supports businesses and institutions in making accessibility more practical, efficient, and actionable.

Based in Mumbai, India
Built for diverse real-world environments

1,000+ Installations Delivered
Proven execution across projects

Pan-India Operations
Supporting accessibility requirements across diverse sectors and locations

ACCESSIBILITY IMPROVES EXPERIENCE, USABILITY, AND TRUST

For businesses and institutions, accessibility is not just about compliance. It shapes how customers, employees, patients, students, residents, and visitors experience a space. Inclusive infrastructure makes environments safer, more welcoming, and more functional for everyone.

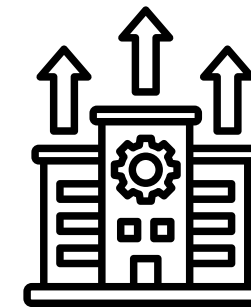

BETTER ACCESS

Enable smoother movement for customers, staff, patients, students, and visitors across everyday spaces.

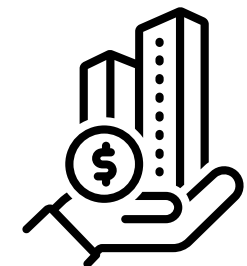

STRONGER EXPERIENCE

Accessible spaces feel more thoughtful, user-friendly, and better designed for real people.

PRACTICAL UPGRADES

The right accessibility solution can often be implemented faster and more efficiently than expected.

FUTURE-READY INFRASTRUCTURE

Organizations that prioritize accessibility are better prepared for evolving expectations and standards.

ACCESSIBILITY SOLUTIONS TAILORED TO DIFFERENT SITE REQUIREMENTS

MODULAR RAMPS

Rapid-install accessibility ramps designed for permanent or semi-permanent use in commercial and institutional spaces.

SUITCASE RAMPS

Portable foldable ramps that support quick deployment, convenient handling, and flexible accessibility needs.

TELESCOPIC RAMPS

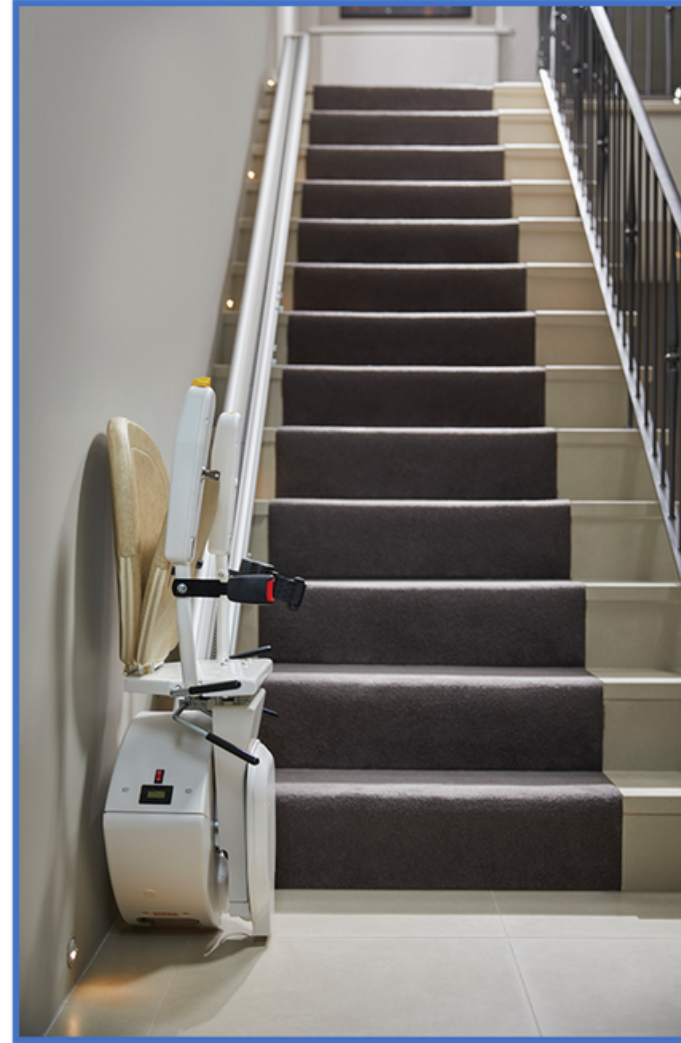

Adjustable ramp systems suited for steps, entries, and mobility transitions across varied site conditions.

ACCESSIBILITY SOLUTIONS TAILORED TO DIFFERENT SITE REQUIREMENTS

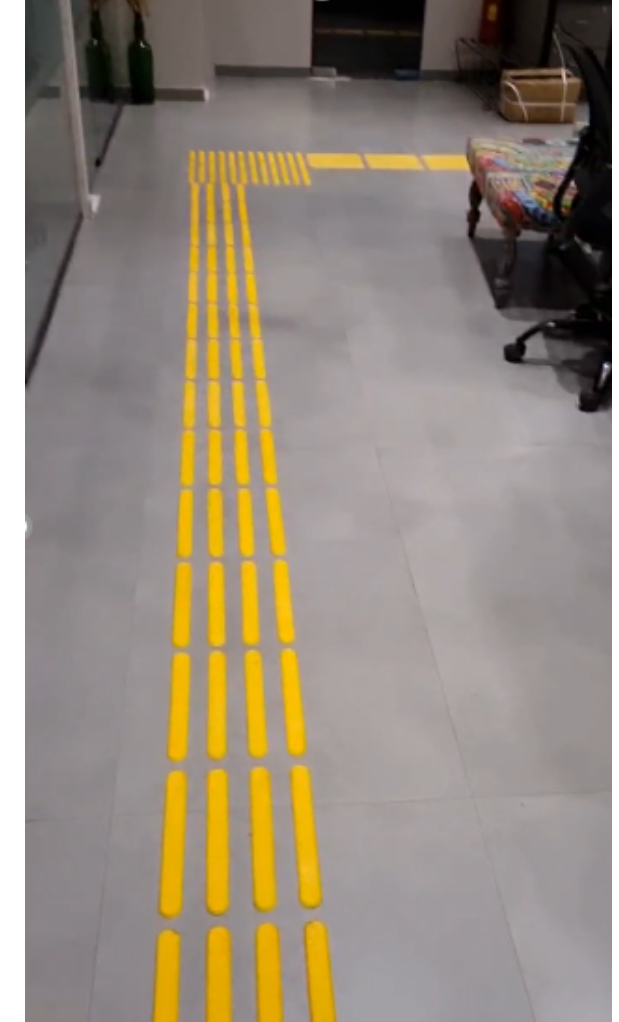

SOCIETY RAMPS

Accessibility ramp solutions designed for residential societies and community spaces to improve everyday mobility and entry access.

STAIR LIFT

Assisted vertical movement solution designed to improve accessibility across staircases in built environments.

BRAILLE SIGNAGE & FLOOR PLANS

Adjustable ramp systems suited for steps, entries, and mobility transitions across varied site conditions.

ACCESSIBILITY SOLUTIONS TAILORED TO DIFFERENT SITE REQUIREMENTS

PLATFORM LIFTS

Vertical accessibility solutions for spaces where a ramp alone may not be sufficient or feasible.

VEHICLE MODIFICATION

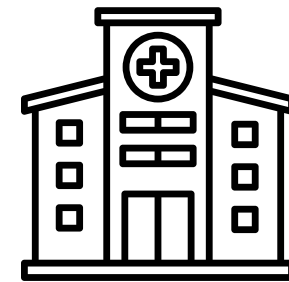

Vehicle-mounted lifting solution that supports safer wheelchair loading and mobility transport requirements.

DESIGNED FOR ACCESSIBILITY REQUIREMENTS ACROSS SECTORS

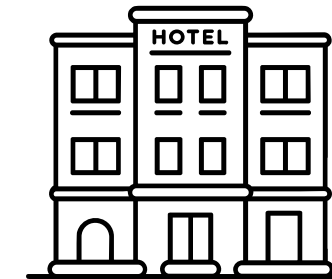

BANKING

Improving accessibility across branches, offices, and customer-facing service environments.

HEALTHCARE

Supporting safer and more accessible movement for patients, caregivers, staff, and visitors.

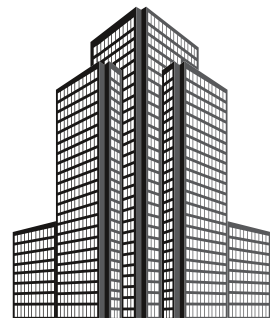

HOSPITALITY

Helping create more inclusive guest experiences across entrances, circulation areas, and amenities.

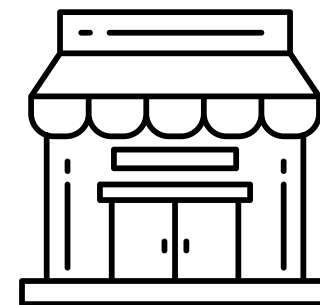

EDUCATION

Enabling safer and more accessible movement across educational and learning environments.

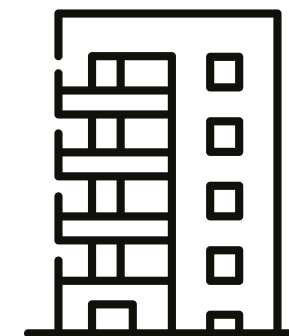

Corporate Offices

Improving accessibility across branches, offices, and customer-facing service environments.

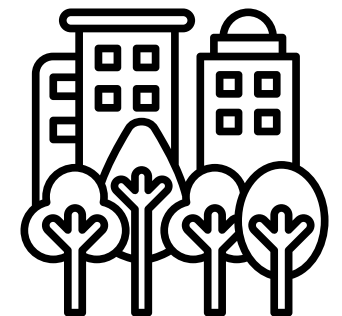

RETAIL

Improving entry access and user experience across stores, outlets, and public-facing spaces.

REAL ESTATE

Supporting accessibility across residential developments, societies, and shared use environments.

PUBLIC SPACES

Helping improve accessibility in civic, institutional, and community-oriented environments.

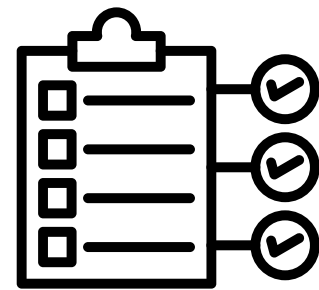

A PARTNER BUILT FOR PRACTICAL ACCESSIBILITY EXECUTION

Acc-Red combines accessibility-focused expertise with on-ground execution to help organizations identify, implement, and support the right solutions for their spaces. Our approach is built around practicality, usability, and real-world deployment.

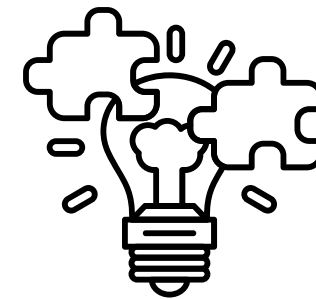

CONSULTATIVE APPROACH

We recommend solutions based on site realities, user needs, and practical feasibility rather than taking a one-size-fits-all approach.

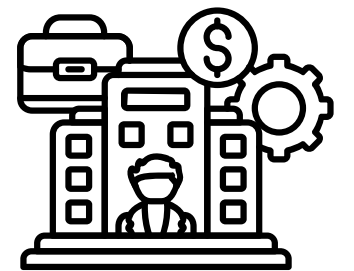

EXECUTION-FOCUSED MINDSET

From understanding the requirement to deployment support, our focus remains on delivering solutions that work in the real world.

BROAD SOLUTION RANGE

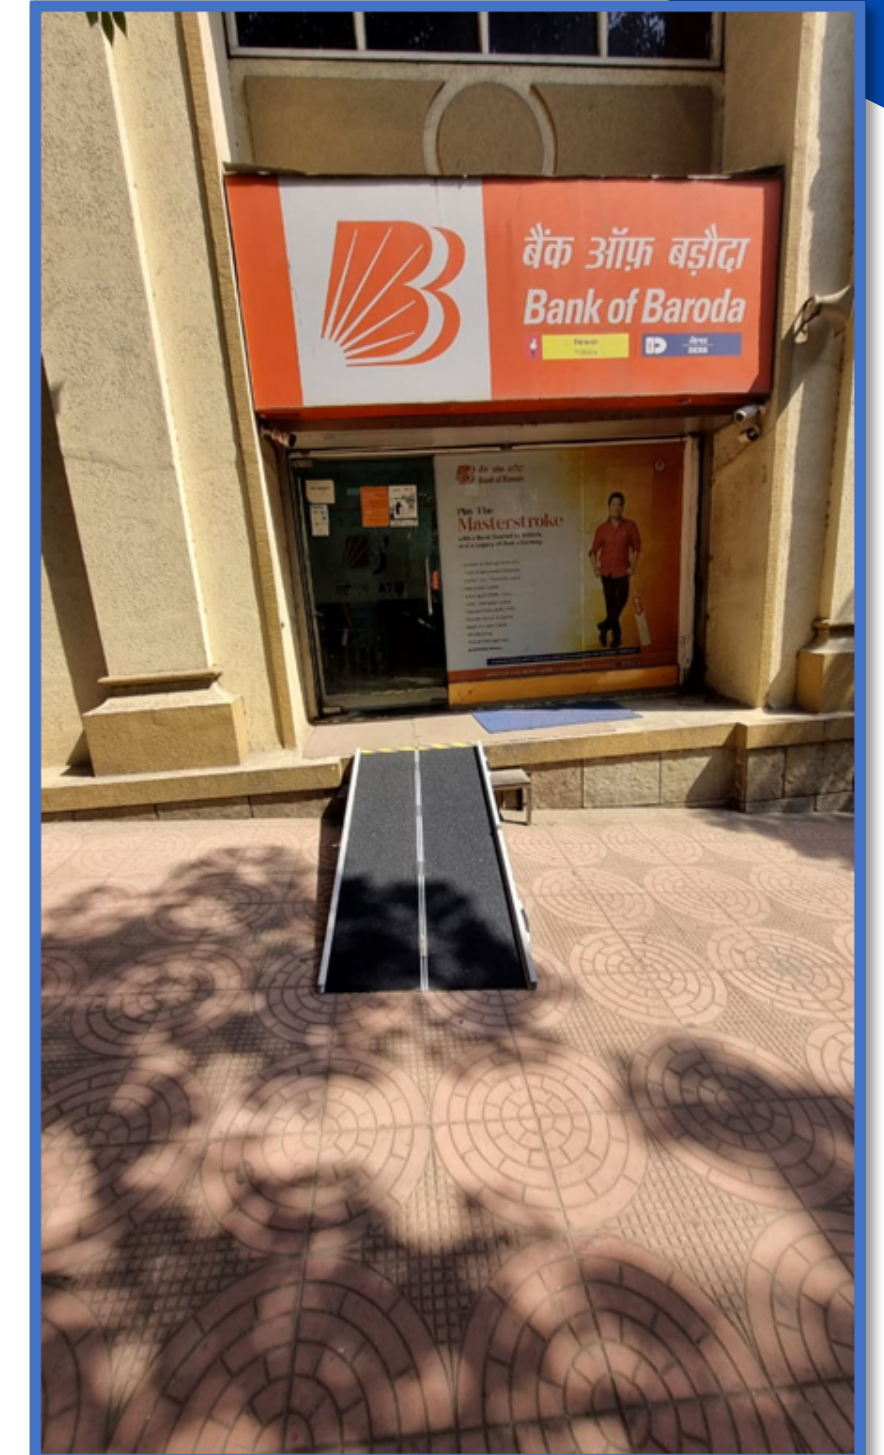

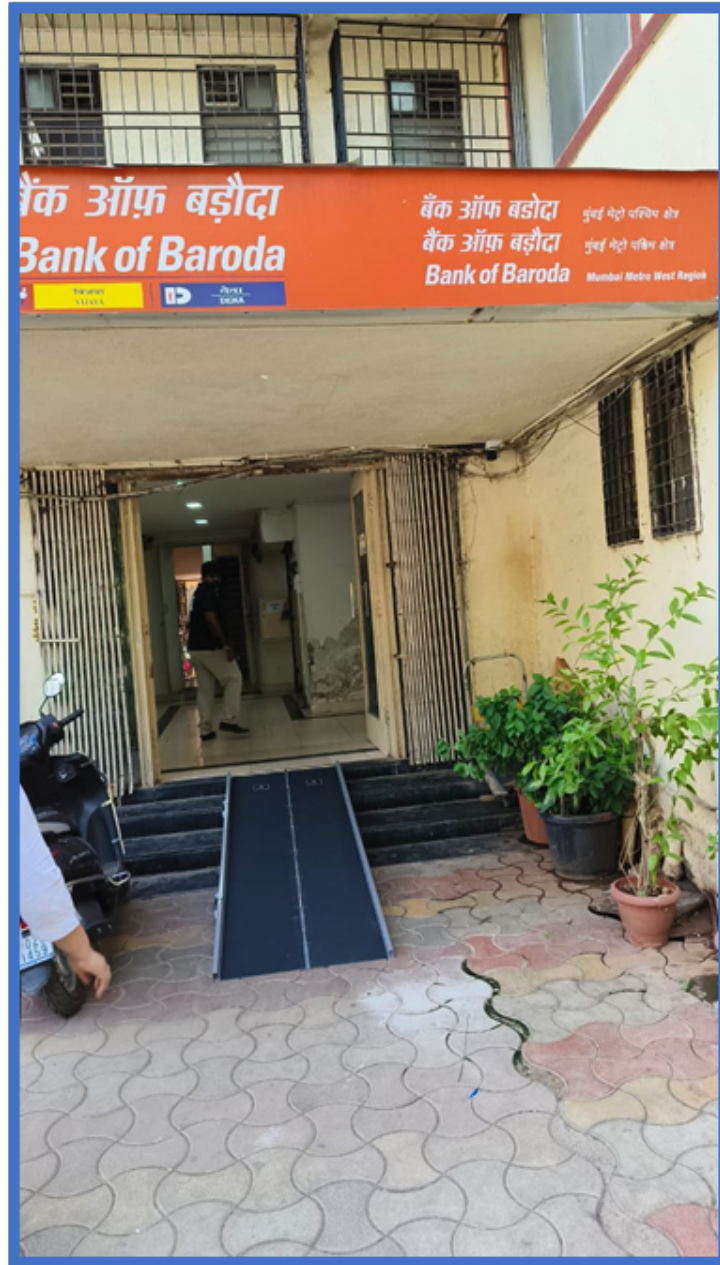

From ramps and mobility systems to signage and vehicle accessibility solutions, Acc-Red supports multiple accessibility requirements under one roof.

EXPERIENCE ACROSS SECTORS

Organizations that prioritize accessibility are better prepared for evolving expectations and standards.
